

BTEC ICT

Why choose a BTEC ?

BTEC's are great choices for those of you who are not as exam based, it gives you so many opportunities to show of your ICT skills in the class room rather than being sat in a exam, unlike other A-levels. This therefore gives many individuals the possibility to perform to their best possible potential.

What skills will you learn doing this course?

There are many skills throughout this course that can be taken into employability after school or university. The practical side learning about spreadsheet, database and social media, all platforms which are used in many business's, which will become evident throughout the course. When you are heading out to employment you will have already learnt so many skills needed in the digital world.

What will I learn in BTEC ICT?

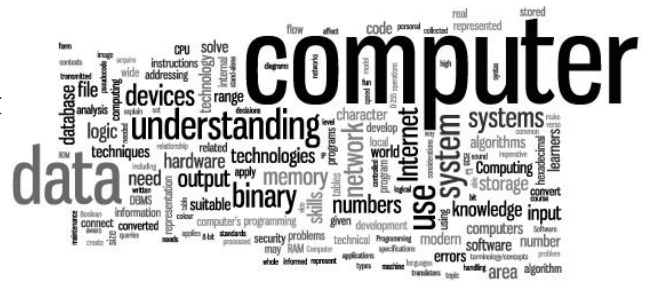

In BTEC ICT there are 4 units which will be completed 2 are examined and 2 are coursework. But with theory examined units it is sat in January so it gives you the opportunity to re set in the Summer. The units are:

Unit 1- Creating an ICT system (theory exam)

Unit 2- Creating systems to manage information(database)

Unit 3- Social media in business

Unit 5- Spreadsheet Modelling.

How are BTEC graded?

BTEC's are not graded the same as A-Levels they are marked in this format :

Distinction * - A*

Distinction - A

Merit - C

Pass- D
